

13 SEER AIR CONDITIONING & HEAT PUMP PACKAGED UNITS

QUALITY MANUFACTURED
AIR CONDITIONING & HEATING
IN A COMPACT, ALL-IN-ONE,
SPACE-SAVING UNIT DESIGNED
FOR YEAR-ROUND COMFORT.

Air Conditioning & Heating

**GOODMAN® PACKAGED UNITS:
COMPACT, ALL-IN-ONE UNITS
SAVE VALUABLE FLOOR SPACE**

**GOODMAN'S FINEST WILL
KEEP YOUR FAMILY IN
ENERGY-EFFICIENT COMFORT
FOR YEARS TO COME.**

Goodman's 13 SEER Packaged Air Conditioners and Heat Pumps provide industry-leading value and technology to homeowners and small businesses while helping keep energy bills to a minimum. Plus, our extensive product offering ensures that you get the right system for your specific cooling and heating need.

Goodman Packaged Units sit on the ground or rooftop outside your home or business and deliver quiet, year-round comfort from a single, self-contained unit. These energy-efficient 13 SEER units operate as an air conditioner during warm weather, and in the winter deliver electric or heat pump-generated warmth. All units come fully charged and tested – direct from the factory.

**PACKAGED AIR
CONDITIONING UNITS**

An energy-efficient Goodman® GPC13H 13 SEER Packaged Air Conditioner is your best bet for long-lasting, high-efficiency air conditioning where space is at a premium.

**PACKAGED
HEAT PUMPS**

The high-quality Goodman® GPH13H 13 SEER Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during severe cold spells.

**YEAR-ROUND
ENERGY EFFICIENCY**

Energy efficiency is key to controlling the cost of heating and cooling your home. Today's minimum standard as directed by the federal government is 13 SEER (Seasonal Energy Efficiency Ratio) for cooling and up to 7.8 HSPF (Heating Seasonal Performance Factor) for heating. Older installed units in many homes may have actual operational efficiencies of

6 SEER or less when cooling and 6.0 HSPF or less when heating with a heat pump. Goodman's 13 SEER Packaged Air Conditioners and Heat Pumps, which also offer up to 7.8 HSPF, are significantly more efficient than these older models.

*Unmatched performance,
efficiency and affordability. That's just
what you'll get with Goodman.*

QUALITY MANUFACTURING BACKED BY WARRANTIES AND SERVICE

RELIABILITY AND LONG LIFE

One of the most critical components of a packaged air conditioner or heat pump is the compressor. Our 13 SEER Packaged Air Conditioners and Heat Pumps boast high-performance, high-efficiency compressors, which operate in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on energy bills!

And if that's not enough, Goodman goes one step further; we install a liquid-line filter dryer in every packaged air conditioner and heat pump we build. The filter dryer prevents moisture and debris from entering the compressor and expansion device, thus preserving the life of the system. Many manufacturers leave this step out, but we've installed filter dryers in our products since we first started making them because we know they can add many years to the life of a unit.

Goodman's
GoodCare
Extended
Warranty Plan
Provides Years
Of Worry-Free
Coverage

SOLID WARRANTY PROTECTION

Goodman® 13 SEER
Packaged Air Conditioners
and Heat Pumps have a

5-Year Limited Warranty for the compressor and all functional parts. For even greater protection and worry-free ownership, ask your Goodman dealer about **GoodCare®**, an affordable extended parts and labor warranty for your entire system.

GUARANTEED QUALITY

From Goodman, you can depend on well-designed, high-quality, thoroughly tested products, backed by some of the best standard and extended warranties in the industry. All Goodman production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

EXCEPTIONAL VALUE

We feel that Goodman offers the best product value for the investment of any air conditioning and heating manufacturer in the U.S.A. Goodman can do this for several reasons, including:

- As the second largest unit manufacturer of residential air conditioning and heating products, we've successfully negotiated high-volume material purchase contracts from the highest quality manufacturers in the world, which keeps our unit quality high and our manufacturing cost low.
- We continually invest in improving our overall productivity.

NATIONWIDE SUPPORT

We supply our Distribution Network through our new, state-of-the-art logistics center. And with more than 700 distribution locations and thousands of dealers coast-to-coast, you can be confident that a qualified service provider is always close by.

Goodman®

Thank goodness for Goodman.™

GOODMAN® PACKAGED UNITS:
YEAR-ROUND COMFORT, MANUFACTURED
WITH QUALITY, VALUE AND EFFICIENCY
IN MIND.

- High-quality, energy-efficient compressor
- Added refrigerant protection with the use of a liquid line filter dryer on air conditioning units and a bi-flow liquid line filter dryer on all heat pumps
- Louvered condenser coil protection
- Fully charged R-22 system
- Quality powder-paint finish resists fading and corrosion
- Fully insulated blower compartment for quiet operation
- 5-Year Limited Warranty on the compressor and all functional parts on all 13 SEER units

**GOODMAN MANUFACTURING COMPANY, L.P. –
A RECOGNIZED INDUSTRY LEADER**

Founded in 1982, Goodman Manufacturing Company, L.P., has grown into the second largest residential air conditioning and heating unit producer in the United States and the world's largest privately held air conditioning and heating manufacturer by providing the three most critical elements of customer satisfaction – quality, value and support. We invite you to compare... you'll be glad you did!

Air Conditioning & Heating

Our continuing commitment to quality products may mean a change in specifications without notice.
